## SUMMARY

Enthusiastic and detail-oriented entry-level MERN (MongoDB, Express.js, React, Node.js) developer with a solid foundation in full-stack web development. Proficient in creating responsive and dynamic web applications. Strong understanding of JavaScript, HTML, CSS, and modern front-end frameworks. Experienced in building RESTful APIs, managing databases, and implementing user authentication. Passionate about learning new technologies and contributing to collaborative team projects. Eager to apply technical skills and creativity to real-world projects in a growth-oriented environment.

## TRAINING EXPERIENCE

### Fullstack web Developer

#### AlmaBetter

📅 2023 - 2024 📍 Bengaluru/remote

MERN (MongoDB, Express, React, Node.js)

- Gained hands-on experience in front-end and backend programming.
- Created and optimized web applications, utilizing front-end frameworks like React and backend frameworks like Express.
- Learned about best practices, including user authentication and data encryption, to develop and deploy high-quality and secure web applications.

## ALMABETTER VERIFIED PROJECT

### QUIZ PLATFORM

📅 08/2023 - Present 📍 Remote

🔗 <https://github.com/kkpatidar1997/quiz-platform.git>

**Technologies Used:** React, Tailwind CSS, JavaScript, HTML, CSS, Redux

- Designed and implemented the user interface using React and Tailwind CSS, ensuring an engaging and user-friendly design.
- Created reusable React components to streamline development and maintain consistency across the platform.
- Managed state using Redux to handle quiz data, user progress, and scoring efficiently.
- Developed responsive layouts to ensure optimal user experience across different devices and screen sizes.

### BACKEND PROJECT - Youtube subscriber

📅 2023 - Present 📍 Remote

🔗 <https://github.com/kkpatidar1997/youtubesubscriber.git>

**Technologies Used:** Node.js, Express, MongoDB, RESTful APIs

- Designed and implemented RESTful APIs using Node.js and Express to handle user data, subscriptions, and analytics.
- Utilized MongoDB for efficient storage and retrieval of subscriber data, ensuring scalability and performance.
- Created data models and schemas to organize and manage subscriber information.
- Developed middleware for error handling and logging to improve system reliability and maintainability.

## SKILLS

### Client-Side

HTML

CSS

JS

React

NEXTJS

Tailwind CSS

Bootstrap

Redux

Redux Toolkit

C++

### Server-side

MySQL

NodeJS

AWS

MongoDB

Express

Mongoose

### Platforms

VScode

Render

Netlify

Postman

Git

Github

vercel

AWS

## EDUCATION

### M.Sc. in Computer Science

#### Holkar Science College Indore

📅 2020 - 2022 📍 indore(M.P.)

## LANGUAGES

Hindi

Native

English

Proficient

# ALMABETTER VERIFIEID PROJECT

---

## Full stack project -Entertainment app

📅 2024 - Present 📍 Remote

🔗 <https://github.com/kkpatidar1997/newfinal.git>

**Technologies Used:** MERN (MongoDB, Express, React, Node.js), Tailwind CSS, RESTful APIs

- Designed and implemented the user interface using React and Tailwind CSS, ensuring a visually appealing and user-friendly experience.
- Created and managed RESTful APIs using Node.js and Express to handle multimedia content, user data, and interactions. Utilized MongoDB for efficient storage and retrieval of large volumes of multimedia content and user information.
- Implemented user authentication and authorization using JWT to secure access to content and user data.
- Developed a responsive design to ensure compatibility across various devices and screen sizes.
- Integrated third-party APIs and services to enhance app functionality, such as streaming services .
- Managed state using Redux to handle complex state logic and improve application performance.
